I like the fancy parties every weekend ever since  
make a classy entrance with my steady partyfriends  
In the car we drop the pills and stash away our share  
after half an hour we reach our glossy stare

I'm jumping up and down and I'm having lots of fun  
it will stay that way until we see the morning sun  
Party in the night and afterparty in the day  
next 24 hours will be the eighter way

I'm raving and I'm raving need it every single night  
hooked up on adrenaline, losing tons of weight  
Never feeling down 'cause my mood is always up  
always will I be last to get out of the club

Wisequys shouting in the middle of the night  
probably just looking for a fuck or for a fight  
Why is it that I find myself in the gutter  
looking all messed up like I'm some kinda slut

I sort of get in trouble after just my second night  
my stash will bring me up again so I can move allright  
I want to jump again BUT MY FEET WONT DO NO MORE!  
I still need EXTRA FUEL to do my movements on the floor
